

BRITISH ESPORTS CHAMPIONSHIPS

2019-20

**Operational Handbook
13th September 2019**

WHAT IS IT?

The British Esports Championships is an exciting new competitive video gaming competition for students aged 12+ in schools and colleges across the UK.

The Championships are open to all secondary schools, Further Education (FE) Colleges and Alternative Provision (AP) schools in the UK and are PC-based.

Tournaments include:

- Rocket League 3v3 (3+ age rating): football with rocket-powered cars

- Overwatch 6v6 (12+ age rating) vibrant first-person shooter
- League of Legends 5v5 (12+ age rating): multiplayer online battle arena (MOBA)

The 2019/20 Championships follow a successful inaugural year, which saw more than 100 teams take part.

KEY INFO

Entry fee is £25 per institute per year + additional £5 per team roster entered per season + VAT.

Registration for Winter Split begins in early September and closes on the 4th October 2019 for students aged 12+ in Years 7-13.

Fixtures will begin on the week commencing 14th October and consist of weekly scheduled competitive sessions until December. Spring Split will begin in January.

Matches will take place after school on a weekday at a convenient time for both teams, likely 15:30-16:15. Matches will last no more than 60 minutes.

To conclude the Champs, there will be a live grand final at Insomnia66 in April 2020.

Institutes may enter multiple teams providing they have at least 1 dedicated PC per player (to account for playing vs their peers).

Institutes must have a minimum of 14 PCs of appropriate specification to enter a team in Overwatch, League of Legends and Rocket League as matches are played simultaneously. Institutes may enter multiple teams in any of the three age-appropriate games as long as they have enough PCs.

All games must be played on PC, and all sessions will have strict online safety rules that must be adhered to:

- Fixtures must be played using our closed community platform
- Only those registered for the Championships will be given access to the platform
- Each team must play together from the same classroom or IT suite whilst being **supervised** by a member or members of staff
- Individuals must not play in Champs matches remotely, from home or another location

WHY YOU SHOULD GET INVOLVED

Esports offers many intrinsic benefits when played in moderation. These include:

◆ Promoting character development, including: leadership, teamwork, communication, social skills and resilience

◆ Links to Computing Education, STEM subjects and the development of digital skills and digital literacy

◆ Increasing engagement with a wider demographic of young people than traditional extra-curricular activities

◆ Links to a range of FE, HE and career pathways

◆ Improved attendance, behaviour, motivation, concentration and focus

◆ Good for positive mental health - it's fun and provides stress relief

◆ Boosting reaction times, speed of decision-making and problem solving

Each institution must be represented by a school or college Leader which must be a registered adult staff member at that institution. In exceptional circumstances, and with written permission from an authorised staff member, a student may be permitted to take on the role of Leader The Leader is expected to:

Act as the point of contact for the British Esports Association and organise/facilitate the esports programme in your school/college

Ensure appropriate technical specifications and permissions are met in school (e.g. firewalls, access to the games on the school/college system) before the first fixtures are due to start

Where possible, ensure students have access to computers at other points during the week (e.g. lunchtimes) to enable them to practise together as a team – like any other sport

Ensure appropriate rules & regulations are followed before, during and after fixtures and that appropriate standards of behaviour and fair play are maintained. Full ruleset to be published at a later date.

Report any issues to Admins e.g. if a player on the team accuses an opponent of 'hacking', they must collect evidence and send it to an admin. Students cannot submit reports direct to the Tournament Admins.

Use our [Discord](#) to communicate with staff from other schools/colleges as directed by British Esports (please note, students are not allowed in the Discord).

Within reason, do everything possible to ensure you fulfil weekly fixtures as part of the Championships.

NEXT STEPS

Unsure what you need to do before signing up in September?
We've put together a checklist to help you through the process.

☐ Do you have enough PCs with the [correct specs](#) in one room?
Is it free on a Wednesday after school?

☐ Do you have enough students who want to take part? If
there are loads, how will you select teams?

☐ Which games will you enter teams for? One of each title,
or multiple teams of each title?

☐ Speak to senior management to get appropriate
permissions to enter the Champs.

☐ Seek support from IT/Network Manager to ensure games
can be played on the [network](#) from October.

☐ If you haven't already, register [here](#).

☐ Be ready to fill out your rosters before 4th October.

☐ Do you need to [purchase game keys](#) or will students use their
own accounts?

Operating system	Windows 10 Home	£87.49
Total cost, excluding VAT		£539.29

Prices taken from a leading UK system builder.

The cost shown is per machine; please multiply the amount by the number of machines you require e.g. 3 PCs for Rocket League would cost £1617.87 (ex. VAT) if you were to build them yourselves. Building PCs is relatively straightforward and could be a fun way to teach your students about computing or engineering. We have our very own tutorial, showing you how to build this exact system which you can watch [here](#).

If you're interested in purchasing this build, please ask us.

CODE OF CONDUCT

The British Esports Association takes safety of players very seriously. As such, we have implemented several measures to protect the wellbeing and identities of those who take part in our tournaments.

Playing of matches

Only those rostered can play. Teams must play together from same school/college. Students cannot play from home. Teams must be supervised by member of staff (the 'Leader'). Tournament rules must be followed.

Unsporting Behaviour

12 "flaming", "toxicity", "bm",

"hacking", "aimbotting")

Any unsporting behaviour is a punishable offence and harms enjoyment of the game. When dealing with unsportsmanlike conduct, it's important that admins have proof of exactly what happened. If an opposing player verbally abuses a member of your team or deliberately behaves in an unsporting manner you must take screenshots and report directly to an admin. Depending on circumstance a player can be punished instantly or if the issue requires more investigation, this will be done after the tournament.

Safeguarding

British Esports Championships considers the three areas of risk in online safety, as outlined by the Department for Education.

Content: all esports titles in the British Esports Championships are age-appropriate for school and college students. Rocket League is PEGI 3+; Overwatch and League of Legends are PEGI 12+.

Contact: each fixture in the British Esports Championships will be played via a closed community platform. Only students registered by their school/college will be able to access the platform. Each fixture in the British Esports Championships will be played on school/college premises and supervised by an adult member of staff (school/college 'Leader'). Professional Tournament Admins will be monitoring all online interactions and fixtures.

Conduct: every school/college will submit the names of each player representing their institution as well as their in-game name (full names of players will not be shared by British Esports Championships without

permission). Therefore, in the event of misconduct during the British Esports Championships, that player can be held responsible and penalties will be imposed. Admins, and every school/college Leader are responsible for ensuring all rules are followed and standards of fair play are maintaining throughout.

School/college Leaders can request to have data erased. More information on data protection can be found in the T&Cs on the tournament website.

Full, up-to-date rulesets are available on the [tournament system](#).
